SPECIALTY URETHANE PRODUCTS

[www.pipeknife.com](http://www.pipeknife.com)

Invented in 1987, the Original PipeKnife® became the first commercialized urethane cutout or long knife tool. Sommer & Maca was the first distributor to stock the PipeKnife® (known as the "Wonder Knife"). It quickly rose to prominence becoming the most popular long knife in the AGR industry.

Current owner Dell Skluzak purchased the patent and equipment in 1993, beginning the basis for PHC, Inc's Brand of auto glass removal products. Today the PipeKnife® Company is joined by REID Cold Knife Tools and Blades, Arctic Warmer Electric Urethane Warming Bags, the VD-K Tool line of Quick Set tools and accessories and the recent acquisition of Frost Fighter Window Defrosting Repair Systems and Kits.

The PHC Inc. Brand of products is one of the largest manufacturers of auto glass removal tools and accessories.

# URETHANE CUTOUT KNIVES

## THE ORIGINAL PIPEKNIFE®

CALL 303-232-8788  
VISIT [www.pipeknife.com](http://www.pipeknife.com)

Invented in 1987, the PipeKnife® was the first commercialized cutout knife. The PipeKnife® safely allowed AGR technicians to reach the tight space created when sloped windshield designs became popular. The PipeKnife® was so named after the original conduit pipes used by many installers to cut urethane during the prototype days of the tool.

### THE ORIGINAL PIPEKNIFE®

Still the most popular design, the round-handle is available in 14" and 18" lengths. Includes extra blade storage in handle. Insert ½" pipe in the end to customize length.

#### Private Handle Label & Colors

Handle Colors available

Universal blade cover is used on all PipeKnife® tools.  
P/N: RSNS

P/N: OPK

14"

P/N: PKXL

18"

Extra blade storage compartment in handle

Aluminum Knives

## REID COMPANY KNIVES, ACQUIRED BY THE PIPEKNIFE® CO.

The PipeKnife® Company carries a wide range of Cold Knives and Blades. After acquiring The REID Company which invented the very first cold knife and blades, our complete line includes the standard cold knife tool, the push button release models and the ergonomic Power Advance cold knife.

### QUICK RELEASE COLD KNIVES

Simply push button on back to release blade. The RK-500 and the thinner QC-200 make blade changes quick and easy.

P/N: RCB-175-S/S 3/4"  
P/N: RCB-110-S/S 1.0"

*Our new cold knife blade packaging provides a new modern look for our distributors.*

All Blades Proudly

## SPECIALTY COLD KNIFE BLADES

RKB-141, original cold knife blade with a 1/2" shank  
P/N: RKB141

RKB-142 and 143 blades have Teflon® coating to reduce blade drag and protect against paint scratching  
P/N: RKB142, RKB143

RKB-142-SP extra-long blade, at 2" long this blade reaches the deepest areas  
P/N: RKB142-SP

RKB-142-45 is 1.5" long blade with a 1/2" shaft bent at a 45 degree angle to assist in getting in tight corners and quarter panel glass  
P/N: RKB142-45

RKB-142-XP and 142-XSP has a 4" long neck and 1" blade for hard to reach areas  
P/N: RKB142-XP

### Paint Protection Strips

The heavy-duty paint protection strip protects paint while using a cold knife blade. Slip the plastic sheet between glass and pinchweld - the blade then glides between the plastic and glass. Quicker than taping and easy to use.

P/N: PS-101 5 Pack 1" width  
P/N: PS-102 5 Pack 1.5" width

# VD-K.TOOLS

## AUTO GLASS REPLACEMENT TOOLS

The VD-K.TOOLS line was developed by 20 Year AGR Technician Luis Hernandez and exclusively licensed to The PipeKnife® Company. These unique tools are designed to make the installations safer, easier and more productive.

## THERMASYNC & CLEARVIEW WINDOW DEFROSTING ACCESSORIES

An added line from the Frost Fighter Acquisition, the ClearView defrosting grid product is a custom designed defrosting system with over 450 different configurations. Use the design template available at [www.frostfighter.com](http://www.frostfighter.com) to design grids for a wide variety of glass. The companion ThermaSync electrical control products provide power components for the system.

### THERMASYNC DEFROSTER CONTROLLERS - 12 & 24 Volts.

These reliable defroster controls are the perfect companion to ClearView and other defrosters including heated mirrors and factory rear window defrosters.

All four ThermaSync defroster control models feature automatic shut-off timing and a remote defroster switch with red indicator light.
